WORK EXPERIENCE

Software Engineer

Adroit Soft India Pvt. Ltd.

04/2024 - Present

Chennai (Remote)

Roles & Responsibilities :

- Led the successful implementation of hospital management software across multiple healthcare facilities, ensuring timely and accurate deployment.
- Delivered responsive JSP-based interfaces integrated with backend systems, optimizing PostgreSQL queries for better performance.
- Utilized iReports to design and generate detailed, insightful reports, enhancing healthcare data analysis and decision-making.
- Provided prompt technical support to end-users, ensuring high customer satisfaction by resolving issues efficiently.
- Conducted application demonstrations and training sessions for potential clients, helping clarify functionality and improve user adoption.
- Collaborated with cross-functional teams to identify, report, and resolve bugs, ensuring smooth deployment cycles and system reliability.

INTERNSHIPS

Web Development (01/2024 - 02/2024)

Completed assigned projects using HTML, CSS, JavaScript, and React.js within the allocated time period at VeriTech Software IT Services, Pune (Remote).

MERN Full Stack Development (06/2023 - 10/2023)

Received training and successfully completed projects on the MERN stack within the assigned timeline and demonstrated outcomes at SmartCliff, Coimbatore (On-site).

Java Technical Trainer (03/2023 - 04/2023)

Conducted Java training sessions for college students, providing hands-on guidance and support at Terv Pro, Chennai (On-site).

PERSONAL PROJECTS

Job Listing Web Application | MERN Stack

- Recently developed a full-stack job listing platform to streamline the process of job posting and application management.
- The User Panel enables job seekers to easily browse available job listings and apply directly through the platform, while the Admin Panel provides administrators with tools to create, manage, and monitor job postings and applicant data efficiently.
